

TO: All vendors considering submitting proposal to the City of Milwaukee's Official Notice 01-2014 for Remote Parking Payment (RPP Technology)

FROM: Cindy Angelos, Parking Finance Manager

RE: Responses to questions from vendors dated August 13, 2014

DATE: August 13, 2014

Five questions were submitted to the City of Milwaukee Department of Public Works regarding the aforementioned request for proposals. Please see the City's responses below.

1. Will companies operating outside of the state of Wisconsin be considered?

Yes

2. Will new startup companies be considered?

*All proposals will be evaluated and scored using the criteria listed in the RFP.*

3. Is there a list of Prime Contractors that have responded with an interest in the RFP that might be looking for a local company to partner with on the response. If there is a list can you share the contract information?

*Not as of August 13, 2014.*

4. Will there be a pre-bid meeting of any kind?

*None is planned as of this time.*

5. May vendors have access to sample data files and protocol information for each type of meter device and TID?

*Vendors must contact the manufacturers of the various types of equipment – Duncan Solutions in Milwaukee for the Duncan single-space meters and for the TIDs and Digital Payment Technology in Vancouver, Canada for the DPT multi-space meters to obtain this information*
